Rome-Moscow School 2012

September 1 - 15 (Moscow), September 16 - 30 (Rome)

This is the third edition of the Rome-Moscow school on Matrix Methods and Applied Linear Algebra.

September 1 - 15, 2012,

Lomonosov Moscow State University, Institute of Numerical Mathematics - Russian Academy of Sciences (INM-RAS)

September 16 - 30, 2012,

University of Rome "Tor Vergata", Department of Mathematics

Aim

The main purpose of the School is to encourage the ideas exchange and scientific collaborations between Italian and Russian universities and institutions, in the fields of matrix methods and applied linear algebra. The School offers to advanced undergraduate, master's and PhD students a long time for learning and thinking over research scientific topics, not limited to short courses and seminars, and the opportunity of entering in direct contact with people and institutions of excellence in the field. The School has been approved by the Tor Vergata Faculty of Sciences MM FF NN and by the Lomonosov Faculties of Computational Mathematics and Cybernetics, and Mechanics and Mathematics.

Attending the courses of the School is equivalent to acquire credits of extra-curriculum activity.

By clicking [here](#) you can download the placard of the school.

Italian and Russian supporters:

- University of Rome "Tor Vergata",
- Lomonosov Moscow State University,
- Institute of Numerical Mathematics, Russian Academy of Sciences (INM-RAS)
- Gruppo Analisi Numerica-Informatica, Tor Vergata
